

**Regulatory Circular RG10-83**

**DATE:** July 8, 2010

**TO:** Trading Permit Holders and TPH organizations

**FROM:** Market Operations Department

**RE:** Restrictions on Transactions in  
Freddie Mac ("FRE/FMCC")

Effective today the NYSE has announced a voluntary delisting of trading in Freddie Mac ("FRE"). Trading in Freddie Mac has commenced on the Other OTC market under the symbol FMCC.

Trading on the CBOE in existing series of FMCC options will be subject to the following restrictions. Only closing transactions may be effected in any series of FMCC options except for (i) opening transactions by Market-Makers executed to accommodate closing transactions of other market participants and (ii) opening transactions by TPH organizations to facilitate the closing transactions of public customers executed as crosses pursuant to and in accordance with CBOE Rule 6.74(b) or (d).

The execution of opening transactions in FMCC options, except as permitted above, and/or the misrepresentation as to whether an order is opening or closing, will constitute a violation of CBOE rules, and may result in disciplinary action. TPH organizations should ensure that they have appropriate procedures in place to prevent their customers from entering opening orders in this restricted option class. In addition, transactions in contravention of this restriction may be subject to nullification pursuant to Exchange Rule 6.25.

There are no restrictions in place with respect to the exercise of FMCC options. The provisions of this circular apply to any options on FMCC traded on CBOE.

Any questions regarding this circular may be directed to Kerry Winters at (312) 786-7312 or Tanja Samardzija at (312) 786-7722.
